THE PROCEDURE

May 27 2006

6:00 P.M.

With excitement and full of expectation, we left for Suqu

7:30 p.m.

We finally arrived after a half and an hour journey.

Everything went on well according to our plan. We met the headmaster of Suqu middle school at the gate of the school. We carried the books to their office. And then we went to the hotel together. He had booked rooms for us.

9:00p.m.

Every group took their last part of time to perfect their plans.

May 28 2006

7:30 a.m.

We got up at 7:30 and then had breakfast together.

9:00 a.m.

We finally met the students. They were from class one grade two and class one grade one. Just as what Tom said after the service, "Though their clothes were nearly worn out, their faces were clean, their eyes were bright and their smiles were sweet." We began our service immediately and finished it at 12:00. During the time, we taught them English, learning methods, daily knowledge and life skills. And we also read, talked, played games and sang songs together. (we can know the detail from every group's report)

IN THE AFTERNOON

Every group's afternoon classes began at different time. They kept their own deal with the students.

In the afternoon, we mainly talked freely to them. Such as their studies, families, friends, ambitions and futures.

4:20 p.m.

We held a big party similar to the first service. The main content was a singing competition. Every group sang well at the party. Their headmaster said that their students had never sing and say so loudly. He said that the students must can gain much from the day's service.(It really made us very happy.)

5:00 p.m.

After hugging and waving hands to the students. We are so unwilling to said goodbye to them. But we should got in cars and left for home.

A rich and exciting day was over. But our work won't be over. We thought much in the cars.

6:00 p.m.

we returned to Zijin Middle School.
